

BAL BHARATI PUBLIC SCHOOL
(An Institution of the Child Education Society (Regd.) Delhi)
MB POWER, ANUPPUR
PRINCIPAL'S ANNUAL REPORT (2019-20)

Good evening, ladies and gentlemen.

Before I start my speech, allow me to share with you an instance from Helen Keller's autobiography. She Says, *'Have you ever been at sea in a dense fog, when it seemed as if a tangible white darkness shut you in and the great ship, tense and anxious, groped her way toward the shore with plummet and sounding-line, and you waited with beating heart for something to happen?'*

I was like that ship before my education began, only I was without compass or sounding line, and no way of knowing how near the harbor was. "Light! Give me light!" was the wordless cry of my soul, and the light of love shone on me in that very hour."

These are the brain-storming words that form the theme of today's celebration "Gurukulam....."

And, to this celebration, with pleasure and privilege, I welcome one and all who are here with us this evening. My salutations to a man of great merits, the Honourable Chief Guest of the day, Shri Basant Kumar Mishra, who as the plant head, HPPPL, a man of unimaginably excellent discipline, shoulders great responsibilities. My salute to the Guest of Honour, Shri V Krishna Reddy, who is a known as a versatile personality with a hearth of gold, to the esteemed members of the parent body, to distinguished guests, and to our own, very dear Bal Bharati Parivaar.

With your due permission, I now present the Annual Report for the year 2019-20. And, hope to take you through our efforts and achievements registered by the school since the last annual day celebration.

CURRICULAR & CO-CURRICULAR ACTIVITIES

The development of learner's cognitive, affective and psychomotor domain is supported by the school through curricular and co-curricular activities throughout the academic session. Regular parent - teacher meetings & parent – principal interactions helped us to ensure maximum participation of parents to improve the scholastic and co-scholastic areas in school-related activities. School has taken some extra efforts to improve the quality of students' performance. The efforts are:

- **Enrichment Classes-** Enrichment Classes in Maths, science & Social Science are regularly organized for students of Classes X.
- **Remedial Programmes-** Remedial Programmes are organized in all subjects for students of I-X during zero periods.
- **Sports Coaching-** Coaching classes have been held for major games throughout the year in Basket Ball, Volleyball and Athletics.
- **Regular Assessment -** Monthly tests for classes I to X have really helped the students work upon their inherent skills and revise the topics that are taught week-wise.

Since its inception, it has been School's vision to give an opportunity to every student to polish all their inherent skills that we have been achieving by conducting co-curricular activities like inter-house and inter-school competitions throughout the year.

OLYMPIADS

An assessment tool that centered on a curriculum-based rating scale was administered in the school.

This tool allowed teachers to determine students' level of mastery of previous and current years' curricula, which helped them, determine the extent to which alternative instructional strategies and remedial content were necessary for both individuals and groups. This approach resulted in significantly improved outcomes. School has been conducting these Science Olympiad Foundation NSO, NCO, IMO & IEO wherein the students have been showing astounding performances. 1 student in IEO, 2 students in NSO and 5 students in IMO have qualified for the second level exam. Few students have been able to grab amazingly wonderful international ranks. NCO result is yet awaited.
